Accompanying documentation or updated information supplied after submission must also be accompanied by a CD-ROM containing the amended or new information in PDF format. This digital format will be kept in the Planning Department digital files and may be used to send plans to Planning Board Members, abutters, peer review engineers, and all other interested parties.

III. ADDITIONAL

The following excerpts, Section 6.10, Section 10.02(D), and Article 12 from the Zoning Ordinance for the City of Manchester are subject for review by the Planning Board under a Conditional Use Permit application. For a complete reference of Conditional Uses refer to Section 5.10 Table of Principle Uses.

6.10 Special Lot sizes in the R-2 District

Within the R-2 District, lots created prior to May 19, 1987 of at least 5,000 square feet in area and a lot width of at least 50 feet shall be considered conforming and shall not be subject to consolidation provisions of this ordinance. In addition, a new lot may be created with at least

5,000 square feet and a lot width of at least 50 feet, provided that it is for a single-family house only and that the Planning Board grants a Conditional Use Permit following a finding that the proposed use, lot size, height, bulk, orientation and other specific characteristics of the proposed lot and building are consistent with, and appropriate to, the predominant character of the adjacent neighborhood.

10.02 (D). Conditional use permits for alternative parking arrangements. The Planning Board is authorized to issue conditional use permits to reduce or alter the number of off-street parking spaces otherwise required by this Article. Such conditional use permits may be issued by the Planning Board for the following flexible parking arrangements and as the Planning Board may otherwise determine that parking to meet the normal requirements would not be used.:

1. Amoskeag Millyard District. Parking in strict conformance with the Table of Parking Requirements shall not be required within the Amoskeag Millyard District. A parking plan, however, shall be required for each development or redevelopment application subject to the review of the Planning Board within the district. The parking plan shall use the Table of Parking Requirements as general guidance for determining expected parking demand from the use(s) within, accompanied by other parking studies as needed. The parking studies may consider how actual parking demand may differ from expected demand based on the unique characteristics of the individual structure or use, and the characteristics of mixed uses which operate at different hours of the day. The plan shall identify how parking demands can be met utilizing any combination of on-site parking, available on-street parking or parking garages or lots. All approved plans shall be filed with the Building Commissioner.

2. Credit for availability of public parking in certain districts. Within the B-1, RDV, C-1 and C-2 districts, where public parking is available within five hundred (500) feet of the principal entrance to the use served, the Planning Board may issue a conditional use permit to reduce the number of off-street parking spaces otherwise required by this Article. Prior to approving such conditional use permit, the Planning Board must find that the public parking available to the proposed use, in combination with other uses placing demands on such facilities, is sufficient in volume, convenience, safety and availability to satisfy the anticipated parking demands of said use.

3. Off-site parking. Within the B-1, RDV, C-1 and C-2 districts, the Planning Board may issue a conditional use permit for off-site parking arrangements which are located within five hundred (500) feet of the principal entrance to the use served, where it finds that:

- a. The off-site parking is located within the same zoning district as the use served, and the use cannot practically supply all of its parking on site; and

- b. The off site parking spaces are contiguous to one another, and specifically dedicated to the principal use(s), and demarcated on the ground to identify the principal use(s) it serves; and
 - c. Adequate provisions have been made to assure safe pedestrian access between the off-site parking location and the proposed use; and
 - d. Wherever required parking spaces are provided off site, such spaces shall be in the same possession, either by deed or long-term lease, as the property occupied by the use, structure or lot to which the parking spaces are accessory. In such case the owner of said lot shall be bound by a notarized letter of record in the Office of the Building Commissioner requiring the owner, his heirs and assigns to maintain the required number of parking facilities for the duration of the use served.
4. *Other.* Within all districts, the Planning Board determines that the parking to meet the normal requirements would not be used.

ARTICLE 12. CONDITIONAL USE PERMITS

12.01 Planning Board to Administer

Wherever a conditional use is authorized by this ordinance, the authority to administer or grant conditional use permits shall be vested in the Planning Board. The duration of a conditional use permit shall be defined by the provisions of Article 15, Section 15.03 Expiration of Permits and Approvals.

12.02. Application and Review Procedure

An application for a conditional use shall be initiated by filing with the Planning Board for an application for a conditional use permit. The following procedures shall apply to the processing of such application:

A. Procedure if Subdivision or Site Plan Approval Also Required. Where other required development approvals for a conditional use include subdivision or site plan approval by the Planning Board, the application and review procedure for a conditional use permit shall be made concurrently and in accordance with the procedures specified in the Subdivision Regulations or Site Plan Regulations as applicable to the particular development.

B. Procedure if Subdivision or Site Plan Approval Not Required. Where no subdivision or site plan approval would otherwise be required for the conditional use, the application and procedural requirements of the Site Plan Regulations shall be applied to the application and processing of conditional use permits with respect to content of

applications, requirements for public notice, hearings and timing of decisions by the Planning Board.

12.03 Burden of Persuasion

The applicant shall bear the burden of persuasion, through the introduction of sufficient evidence through testimony or otherwise, that the development, if completed as proposed, will comply with this Article and will satisfy the specific requirements for the use contained in the ordinance.

12.04 Standards of Review

In reviewing an application for a conditional use permit, the Planning Board shall consider the following information in its deliberations, as applicable to the case:

- A. Specific authorization for the conditional use in Article 5, Sections 5.10 and 5.11 Table of Principal Uses and Table of Accessory Uses;
- B. Compliance of the development plan with the specific standards for such use contained in the zoning ordinance;
- C. The results of any special investigative or scientific studies prepared in association with the proposed development;
- D. Special reports or analysis of the project or its impacts, prepared by the City or consultants;
- E. The findings, goals and objectives of the City Master Plan;
- F. The relationship of the development to the timing, location and cost of public improvements scheduled in the Capital Improvements Program; and
- G. Testimony and evidence introduced at the public hearing on the application.

12.05 Hearing and Decision

Following a public hearing on the proposed use, the Planning Board shall issue a conditional use permit, if it finds, based on the information and testimony submitted with respect to the application, that:

- A. The use is specifically authorized by Article 5, Section 5.10 or 5.11, Table of Principal Uses or Table of Accessory Uses as a conditional use;
- B. If completed, the development in its proposed location will comply with all requirements of this Article, and with specific conditions or standards established in this ordinance for the particular use;

- C. The use will not materially endanger the public health or safety;
- D. The use will not substantially de-value abutting property;
- E. The use will be compatible with the neighborhood and with adjoining or abutting uses in the area in which it is to be located;
- F. The use will not have a substantial adverse impact on highway or pedestrian safety;
- G. The use will not have a substantial adverse impact on the natural and environmental resources of the City; and
- H. Adequate public utilities and community facilities are available to the property to ensure that the proposed use will not necessitate excessive public expenditures in providing public services.

12.06 Stipulations of Approval

In granting a Conditional Use permit, the Planning Board may attach reasonable conditions to its approval, including but not limited to the phasing of a development, where such conditions are shown to be necessary to further the objectives of this ordinance and the master plan, or which would otherwise allow the general conditions of this Article to be satisfied. Representations made at a public hearing, or in material submitted to the Planning Board by an applicant, to obtain a Conditional Use permit shall be deemed conditions for the issuance of the permit. All conditions of approval shall be stated in writing in the issuance of a permit. The Planning Board may require that such conditions be annotated on a site plan or subdivision plat, or otherwise recorded at the Hillsborough County Registry of Deeds.

12.07 Appeals

Any persons aggrieved by a Planning Board decision on a Conditional Use permit may appeal that decision to the Superior Court, as provided for in RSA 677:15. A Planning Board decision on the issuance of a Conditional Use permit cannot be appealed to the Zoning Board of Adjustment. (RSA 676:5, III)
